

Reference Photo

You will need:

- Drawing paper
- A soft brush
- Eraser
- Drawing pencils
I used an HB, 2B & 6B in the video

Steps to Draw this Eye

1. Compose your page
Block out where you think you'd like all the major shapes on your page or canvas
2. Create a Contour Drawing
Using the Measuring technique, seek all the shapes within the larger shapes to create a refined outline
3. Add Shading
Use your pencils, light to dark as I do if that feels right, to add value to your drawing.
Continue using your reference photo to guide you. You're basically shading in your contour marks.
Correct as you go.
